## — COMMENTS

- present for every method  
but not very comprehensive

## — STYLE

- consistent commenting / whitespace throughout

## — ROBUSTNESS

- exceptions thrown,
- passed DequeDriver examination  
using ↙ ↳ (after changing  
QQ Kachoo to DLLDeque  
name)
- did not implement isEmpty()

## — README

- very thorough, following step
- summary of development plan is clear  
and methods section comprehensive
- doubly linked nodes used to implement  
and is clearly explained
